Roughhewn heavy timber columns and beams, combined with rustic stone, ceramic tile, and caña brava, give the home a casually elegant feel inside and out - a gentleman's (or gentlewoman's) country home.

Living, dining, kitchen spaces blend yet stay separate simultaneously. Bedrooms are grouped in a more private zone with the Primary Bedroom with its own bath and walk-in closet opening outside to the garden. Domestic quarters feature a bedroom and full bathroom on the other side of the home.

The Perfect Location for Going Back & Forth

It's a straight shot to the Central Valley and San Jose to the south, and the fabulous beaches of Guanacaste's Gold Coast to the west from Casa Tiki! Located just outside of Liberia's downtown centro on the Interamericana Highway (Carretera Interamericana Norte, Ruta 1), it's the perfect location for a family of professionals wanting to move back and forth between the two.

Casa Tiki was lovingly and caringly built by a construction professional for his family to live and grow up in.
