Puntarenas Waterfront Development Land

Rare Waterfront property on the inland section of the Puntarenas Peninsula with direct access to the Gulf of Nicoya and the Pacific Ocean. With 134 meters of waterfront and just under 1 hectare of level land, this a prime parcel suitable for a hotel resort & marina, maritime university campus, lite commercial, residential, maritime commercial and training center, or a longterm investment. Details are available on request. With enough frontage to accommodate docking for 60-80 vessels, this property is priced well for a serious investor. Waterfront lands on the inland waterway on the peninsula at the City of Puntarenas rarely become available for purchase. Contact for details.
